Attention: The PRESIDENT, AZICUL BAMENDA

RE: REMINDER ON THE PAYMENT OF OUR BILLS

SIR,

We are reverting back to you on the issue of our unpaid bills. I had a discussion with the general manager on our pending bills (two year support of 600 000, Balance license payment for 1200000 and connectivity development for 2 000 000). His explanation was that if we do other updates, like programming to transfer money from savings accounts to shares without asking for AZICUL to pay, then it should be the same thing for the connectivity program.

I told him that I differ with him because AZICUL ordered the connectivity project. This is not an isolated incident because as with the support that we a requesting 600 000 for two years service, he ordered us to work, even in distressful conditions only to refuse payment when the time came to pay.

We plead that you look into our problem and get these bills paid for us.

Thanks and regards,
